THE WEEK IN WESTCHESTER.

Features That Appeal to Our Northern Neighbors.

County Treasurer and Coroner Will Likely Be Renominated.

The Republican convention for Westchester County, which is to meet in St. John's Hall, in White Plains, next Tuesday, will have almost as many delegates as a State convention. Owing to the increased vote in the county there will be 259 delegates this year, representing twenty-two towns

It is understood that the leaders have agreed on Assemblyman George N. Rigby, of Yonkers, as chairman. In the absence of William L. Ward, chairman of the County Committee, who is enjoying a six weeks' vacation in Europe, John J. Brown, secretary of the committee, will call the convention to order and make the preliminary address. Mr. Brown is president of the village of White Plains and a member of the new Bronx Valley Sewer

As usual, White Plains will be gayly decorated, and the convention will be enlivened by the presence of clubs and delegations arrayed in badges and uniforms and accompanied by bands. The and uniform and probable nominees are Joseph B. See, of North Castle, for County Treasurer, and Ulrich Wiesendanger, of Yonkers, and Dr. Philip S. Van Patten, of Mount Vernon, for coroners. Mr. See and Cor-oner Wiesendanger have both served one term in their respective offices, and their services have been ro satisfactory that their friends everywhere insist on having them renominated.

Yonkers will make the biggest display, coming to the convention in special trolley cars 200 strong, with a brass band, to make the nomination of Coroner Wiesendanger. Coroner Wiesendanger has served three years, and during his term has handled 325 cases, eight of which have been murders. Although he is a druggist and was without any experience as a prosecuting officer when first elected, he quickly acquired a knowledge of the duties of his office, and no other man who has ever held the position has been so valuable to the police and to the District Attorney's office in running down and convicting criminals. In every murder case in which he has been called the guilty persons have been apprehended and convicted. This is a record which is unprecedented in Westchester, although the county has had some excellent coroners, and the friends of Coroner Wiesen-danger are desirous not only of re-electing him this fall, but of pramoting him at a future time to the office of Sheriff of the county. County Treasurer Sea will probably be placed in

nomination by his friend, A. Smith Hopkins, the best known orator of the Board of Supervisors. Mr. See has made a competent and obliging county official and his nomination is regarded as equivalent to re-election. Mr. See is well known to the people of the county, having served in the Board of Supervisors for many years, where he rendered admirable public service in behalf of better roads. During seven years of his service in the Board he made a special study of matters pertaining to State and county road legislation, and the people of the county owe much to him for the completion of hun-creds of miles of splendid highways they now enjoy. With the tax to collect from the new mort-gage tax bill and the extra money to handle dur-

gage tax bili and the extra money to handle during the construction of the Bronx Valley sewer, the treasurer's offine in Westchester County is more important than ever before, and the people of the county will find it to their interest to have an experienced official in charge.

A nomination for coroner will be given to Mount Vernon because it is the feeling of the County Committee that the eastern section of the county is entitled to the office. Dr. Van Patten, who appears to be the favorite candidate, is a young physician who stands high in that city. For several years he has served as police surgeon and coroner's physician, and his duties have afforded him experience which will aid him in the conduct of criminal cases.

RED SHIRTS TURN OUT.

Much Appreciated.

The parade of the Hudson River Valley Firemen's Association, held in connection with the sixteenth annual convention, in Mount Vernon on Wednesday brought out the largest array of well drilled companies and costly apparatus ever seen in Westchester County.

It is estimated that there were 20,000 visitors in Mount Vernon. The spectators came from as far up the Hudson as Albany and Troy, and as their ome companies were recognized in the line of march, they greeted them with shouts of approval.
Mayor Brush and the Board of Aldermen reviewed the parade from a grandstand at Prospect and Park aves. The judges were Chief Ross, of the New-Rochelle Fire Department; Charles Dunkel, of New-Rochelle, and Ex-Judge Schatz, of Mount The judges passed by the \$10,000 sliver and gold

parade carriage of Wiltwyck Hose, of Kingston, and gave the first prize to the Citizens' Hose Company of Catskill on general appearance. This company had about sixty men in line in white and gold uniforms. As it marched down the street, led by the Colonel John Jacob Astor Drum Corps, also in white and gold, it took the eye of the crowd, and the decision of the judges was gen-erally approved. The other prizes were the silver tankard given by Gustav E. Kolb, treasurer of the Mauser Manufacturing Company, and a cut glass punchbowl, the gift of George R. Crawford, president of the Westchester Pire Insurance Com pany. It was stipulated that both prizes should go to the best appearing Mount Vernon comgo to the best appearing Mount Vernon com-panies, and the judges awarded the tankard to Clinton Hook and Ladder Company and the bowl to the Mount Vernon steamer company. The steamer company held a formal dedication of the punchbowl and called on the judges to have the first drink. The bowl was filled twelve times before the ceremony was finished.

The new officers elected by the convention are: President, Stephen J. Preston, of Mount Vernon; vice-president, Thomas B. Browne, of Peekskill, treasurer, Fred S. Bieber, of Poughkeepsie; sccre-tary, John J. Bruce, of Peekskill, The next con-vention will be held in Rensselaer.

The annual outing of the South Bronx Property-Owners' Association was held on Thursday, June 22, at Donnelly's Park, College Point, Long Island. The outing started with a special College Point ferryboat from East 13th-st, at 9.5 a.m., with the committee and music on board. Shortly after the boat arrived at the park, contests of various kinds were run off. A special dinner was served at 1 p. m. A good band and orchestra kept the dancers busy during their stay at the park.

CONVENTION THIS WEEK. NEW CAR LINE WELCOMED

May Improve Union Service.

Perhaps the greatest incentive towards having the Union Railway Company provide The Bronx with better trolley service will be the entry into the local field of the Interborough company, which is to operate six lines of trolley routes in various

parts of the borough. What repeated efforts on the part of local civic bodies have failed to bring about competition promises to accomplish. From the time that sur-

have had to depend on the Union Railway Company for service, and that company, secure in its enjoyment of an absolute monopoly, has been content to introduce few improvements in its service in the way of new and better cars, a schedule that would meet the demands of the constantly increasing traffic, and in other particulars needful to the quick and comfortable transportation of its pa-

An idea of the methods employed in the conduct of the lines of the Union may be had by a reference to an action taken by Controller Grout this month. In the franchise which the company received for running cars across McComb's Dam Bridge it is provided that a headway of twenty minutes be maintained. The penalty for each violation is \$50.

Inspectors from the Controller's office discovered two occasions where the headway proviso was pleasantly ignored. As a result the Union Railway Company was called on to pay the city \$100, which it did without protest.

Just how it may adjust headways on lines where no penalties are enforceable may be readily imagined. The six lines which the Interborough company is building will all be crosstown routes, will run to stations of the elevated road and subway, Punchbowl Won by Mount Vernon and will undoubtedly cut heavily into the business of the Union Raflway Company. Men in The Bronx who have labored for years to bring about approximately decent service on the part of the Union declare that when the receipts of the mpany begin to fall off a change for the better

> It is true that the Union Railway Company has double tracked some of its lines, notably the one to Mount Vernon, but common business prudence demanded this if cars were to make the run in any sort of time. With the old single track, with its innumerable switches, cars were often stalled from fifteen minutes to haif an hour waiting for the car scheduled to meet it to arrive. All while the pay of motorman and conductor went on at so much an hour. This fact finally appealed to the Union Railway, and now the Mount Vernon line is double tracked throughout and the run is made in about an hour. In the rush hours on all lines cars pass along crowded to the doors, with men riding on the platforms and bumpers, in peril of their lives.
>
> Only last Wednesday the State Railroad Commission, in giving out its report on the hearing held before it on the Union's service, recommended that shorter headway be maintained on the various lines. To this might be added more and bigger cars and an intelligent management of the road which would know how to deal with congestion, blocks and similar interruptions to traffic. while the pay of motorman and conductor went

SOFT COAL NUISANCE.

Westchester Smothered in Smoke from the New-Haven Trains.

The people of the Westchester and Connecticut suburbs are complaining again against the use of soft coal in the locomotives of the New-York, New-Haven & Hartford Railroad.

Mayor Edward F. Brush and Corporation Counsel Roger M. Sherman on Friday served notice on President Mellen that unless the company stops using bituminous coal on the locomotives passing Mount Vernon the engineers and firemen will be taken from the cabs by the police and prosecuted. The Mount Vernon city authorities served the same The Mount Vernon city authorities served the same notice on the company about a year ago, but it seems to have had only a temporary effect. The locomotives are again pouring out a black smoke which covers the towns and cities along the line like a cloud, causing much annoyance. Women commuters complain after a trip to New-York and back their gowns have to go to the cleaners for a week. Special complaint is made against the Merchants' Express, which the commuters say is a habitual violator of the smoke ordinance.

RATS WALK WIRES.

A graceful exhibition of wire walking was given by a number of rats at Sligo yesterday afterno An excise officer, who was cycling by the Town Hall, happened to look up and saw an enormous rat making its way along an overhead electric wire.

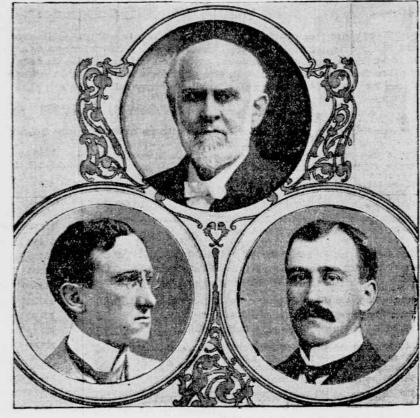

He pointed it out to the Town Hall officials and they watched nearly 150 of the rats pass along until they were hidden from sight by a lofty flour mill. The rats used their talls as the professional walker on the lofty wire uses his balancing pole, and, although they were watched for more than 200 yards, there were no casualties.—(London Express).

The Sterling Piano 60.

How and Why This Immense Business Has Grown

FIRST. It it genuine merit only that makes the permanent mile stones of life. Superficial merit never lives. The public gaze soon pierces the strongest armor of deception. It is, therefore, what the Sterling Piano really is, its permanent place as a true interpreter of music, that of necessity has been the basis upon which our great success has been builded.

SECOND. Business success cannot be permanent without confidence, and confidence in us has grown with familiarity, because the very principles of honest and fair dealings with which Charles A. Sterling founded the business in 1860 have continued through the 45 years of our phenomenal growth.

THIRD. Every one who deals with us must have permanent satisfaction or we do not consider the transaction closed. It would be foolish to claim that we don't make mistakes, because with a large staff of salesmen and employes handling a vast number of Pianos every week, it would be strange for human nature to be always right. Never hesitate to make known to us the slightest cause for complaint. We are more interested in righting it than you can possibly be.

FOURTH. Moderate prices. You are dealing direct with the manufacturers and thus always in close touch with those who are interested in the Piano as long as it lives.
